

UltraSnap™ | Surface ATP Test

UltraSnap is a user-friendly ATP surface test designed for use with Hygiena™ luminometers. This all-in-one test contains a pre-moistened swab bud for optimal sample recovery. A unique liquid-stable reagent provides superior reproducibility and robustness. Hygiena's patented Snap-Valve™ technology facilitates easy activation.

Benefits:

- Pre-wetted swab maximizes sample recovery and breaks through biofilm
- Unique liquid-stable reagent gives superior sensitivity and reliable results
- 100% recyclable plastic
- 15-month shelf life at refrigerated temperature (2 - 8 °C)
- 4-week shelf life at room temperature (21 - 25 °C)

Sensitivity:

Hygiena System	UltraSnap™ Detection Limit				
femtomoles ATP	10 fmol	1 fmol	.1 fmol	.01 fmol	.001 fmol
ATP (mol)	1×10^{-14}	1×10^{-15}	1×10^{-16}	1×10^{-17}	1×10^{-18}
SystemSURE Plus	● ● ● ●				
EnSURE	● ● ● ● ● ●				

Performance:

UltraSnap's superior performance was validated in a third-party study conducted by a large reference laboratory. Hygiena's system demonstrated superior repeatability, and outstanding performance for linearity, sensitivity, and accuracy over other ATP systems.

Related Products

SystemSURE Plus

SystemSURE Plus is used for ATP hygiene monitoring. This palm-sized instrument is easy to use, extremely sensitive and affordable, allowing users to quickly determine the cleaning efficiency and hygienic status of surfaces and liquid samples to ensure product quality and reduce costs.

EnSURE™ Monitoring System

EnSURE™ is a high-sensitivity luminometer that measures multiple quality tests such as ATP, TVC, Coliform, *E. coli* and more all on one system. The monitoring system includes SureTrend data tracking software.

AquaSnap™ Water ATP Tests

AquaSnap™ measures ATP found in liquid samples, utilizing a honey dipper to consistently collect 100 µl of liquid sample. The device uses a liquid-stable reagent in place of freeze-dried enzymes giving it superior reproducibility and sensitivity. AquaSnap is available in Total and Free format.

SuperSnap™ High Sensitivity Surface ATP Test

SuperSnap™ is the most sensitive ATP surface test in Hygiena's ATP hygiene monitoring portfolio of all-in-one devices. Designed to work with all Hygiena luminometers, SuperSnap is an all-in-one test which detects extremely low levels of ATP. SuperSnap is predominantly used in food and beverage processing facilities as an allergen cross contamination prevention.
